36 Summary: AmTab® Learning Environments and Learning Experiences™ Program

Our Passion

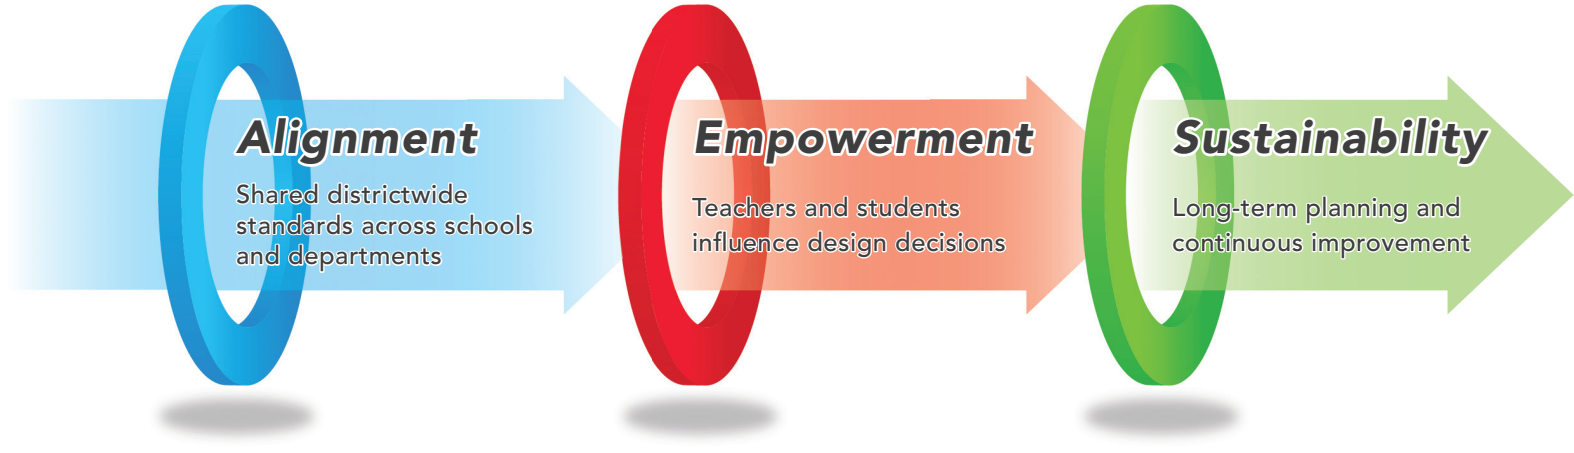
AmTab's® passion is to create modern, engaging, and dynamic learning environments that enhance student experiences and well-being with our high quality furniture, signage, graphics, decor, and social media marketing across entire districts.

Overview

AmTab's® Learning Environments and Learning Experiences™ Program (ALELEP) is an evaluation of school furniture, signage, graphics, decor, and social media marketing in each school across your district. ALELEP includes site visits, stakeholder interviews, and detailed Discovery Reports. In addition to providing data-driven recommendations, ALELEP helps districts establish and implement districtwide standards.

Aligning People, Environments, and Experiences in Harmony

The AmTab® Learning Environments and Learning Experiences™ Program is a catalyst for culture change. Across multiple districts, we've seen a shift from reactive upgrades to proactive planning. ALELEP encourages districts to move away from isolated efforts and inconsistent learning spaces to cross-department collaboration and unified districtwide standards.



Psychology of Dynamic Learning Environments and Learning Experiences

Design That Activates The Brain And Body

Dynamic learning environments stimulate brain activity and motivation by aligning physical space with how students naturally learn best. According to principles from neuroarchitecture, three key psychological drivers—autonomy, movement, and stimulation—are at the core of effective educational design.

Autonomy

Students are more engaged when they have control over where and how they learn.

- Flexible seating options (e.g., stools, booths, high tops)
- Zones for independent work or quiet reflection
- Mobile furniture that empowers students to adapt the space

Movement

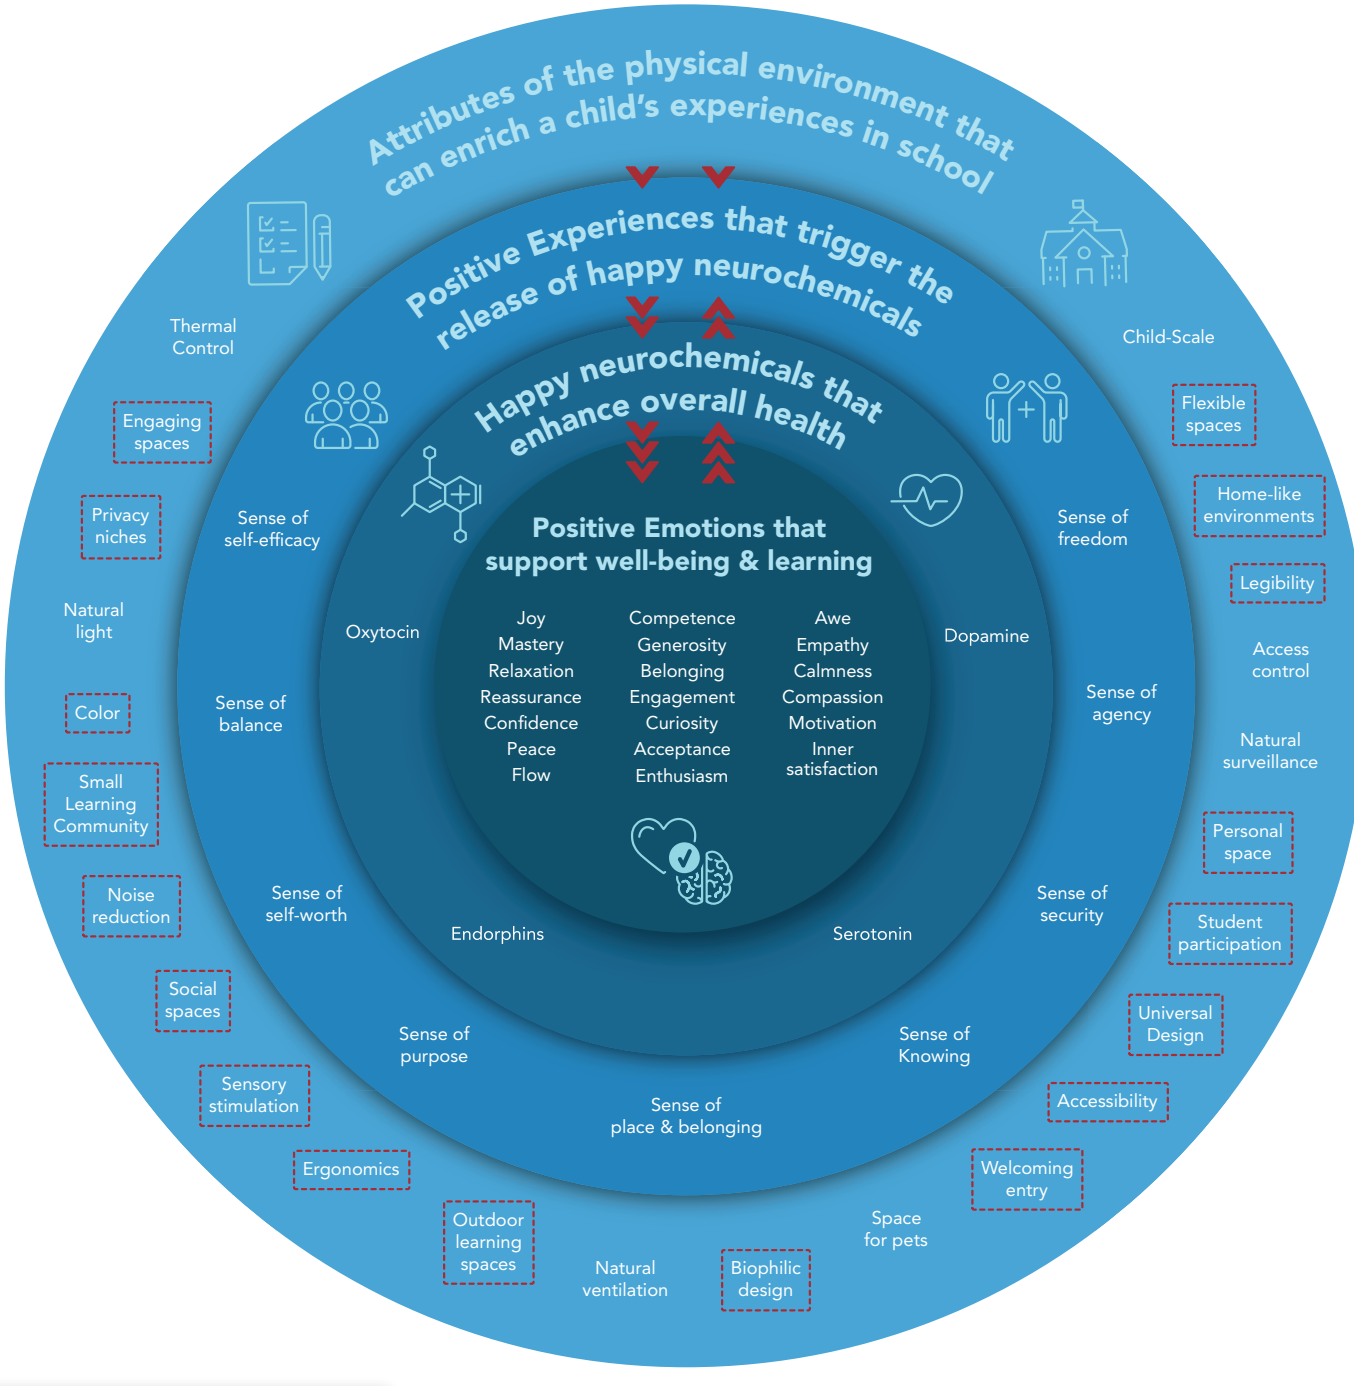
Physical activity enhances focus, memory, and emotional regulation—design that encourages movement helps activate both brain and body.

- Outdoor spaces that promote walking, stretching, and free movement
- Seating arrangements that support posture shifts and dynamic learning
- Flexible layouts for kinesthetic lessons and active breaks

Stimulation

Vibrant, sensory-rich spaces keep students alert, curious, and emotionally connected.

- Color theory that promotes focus or calm (e.g., blues for reading, oranges for creativity)
- Lighting variation and natural daylight
- Graphics, textures, and movement that spark curiosity



Legend

The AmTab Advantage™

Prakash Nair, AIA, Dr. Parul Minhas, ©Education Design International, White Paper on Neuroarchitecture, A New Language of School Design (Association for Learning Environments, 2023), p22

Holistic Wellness

Wellness is Multidimensional

Education is about nurturing the whole student and unlocking their full potential. Holistic Wellness supports every aspect of student growth, rooted in academic learning, emotional well-being, meaningful peer relationships, resilience through challenges, and authentic self-expression.

Methods such as Social and Emotional Learning (SEL), are constructed to teach social and emotional skills that reinforce Holistic Wellness. Designing learning environments incorporating these elements cultivate students' character growth, fulfill impactful learning experiences, and generate lasting success.

Nature, Brains, and Grades

Factoring in Holistic Wellness in addition to Biophilic Design, AmTab creates sandbox environments where students are engaged, excited, and empowered for success.

Physical: Nourishing a healthy body through exercise, nutrition, and sleep.

Mental: Engaging the world through learning, problem-solving, and creativity.

Spiritual: Searching for meaning and higher purpose in human existence.

Emotional: Being aware of, accepting and expressing our feelings, and understanding the feelings of others.

Social: Connecting and engaging with others and our communities in meaningful ways.

Environmental: Fostering positive interrelationships between planetary health and human actions, choices and wellbeing.

Nair, P., Minhas, P., Doctori, R. Z., Sirota, L., Bhadran, B., Stager, G., Cupolo, F., Harrison, A., et al. (2023). A New Language of School Design, Evidence-Based Strategies for Student Achievement & Well-being. Figure 6. p12, Edited by Nair, P., AIA, and Minhas, P. Illinois: Association for Learning Environments.

Biophilic Design and Physiological Wellness

AmTab Biophilic Design

AmTab Physiological Wellness

Why Nature Matters in Every Classroom

Water and air movement regulate the nervous system

Natural light boosts math and reading performance

Views of nature help students focus and recover from stress

Living plants improve attention and engagement

Natural textures calm the brain and reduce stress

"...natural shapes, such as flowers, leaves, stars, honeycomb-like hexagons, or seashells are excellent ways to incorporate biophilic design."

Forest & Maker
The Beauty and Benefits of Biophilic Design

Ocean Wave Imprint

Honeycomb Textured Grid Pattern

Biophilic Movement Waterfall Feature

Made in the USA

AmTab ErgoEngage® Chair Series

"Water in general has an incredibly powerful impact on improving concentration and memory restoration... the auditory presence of water lowers heart rate and blood pressure, which immediately reduces stress and benefits physical health long term."

Claremont Colleges, Pomona. Theses:
Facilitating Experience through Fabrication and Blue Biophilic Design

Percent of Students Measuring "Low" or "No Stress" Levels in the Classroom

33% of Students in **Control Classroom** feel **Low or No Stress**

65% of Students in **Biophilic Classroom** feel **Low or No Stress**

"This finding suggests the biophilic classroom helped to reduce students' stress levels during the semester to a greater extent than the control classroom."

Jim Determan, FAIA, Principal
The Impact of Biophilic Learning Spaces on Student Success

Design Process Methodology

Modernizing your Learning Environment involves adding new Award-Winning Furniture and Signage Graphics Decor. The Design Methodology Process follows 5 steps in collaboration with the school and district, guaranteed to provide your educational environments with expertly designed products while receiving the highest standard of customer service.

Discovery Phase

Our first step is to learn about your goals, vision, and specific needs. Whether it's a food court, library, or classroom, we tailor everything to fit your environment.

Design Request and Scheduling
Initial conversation to determine next steps.

Project Design Intake and Design Intent Consultation
Site visit, meeting, and survey of existing floor plan.

Kickoff Meeting with Design Team
Receive project direction and guidance from client to begin.

Collaborative Design and Project Alignment

We create initial concepts and designs, incorporating your feedback to ensure every detail aligns with your expectations.

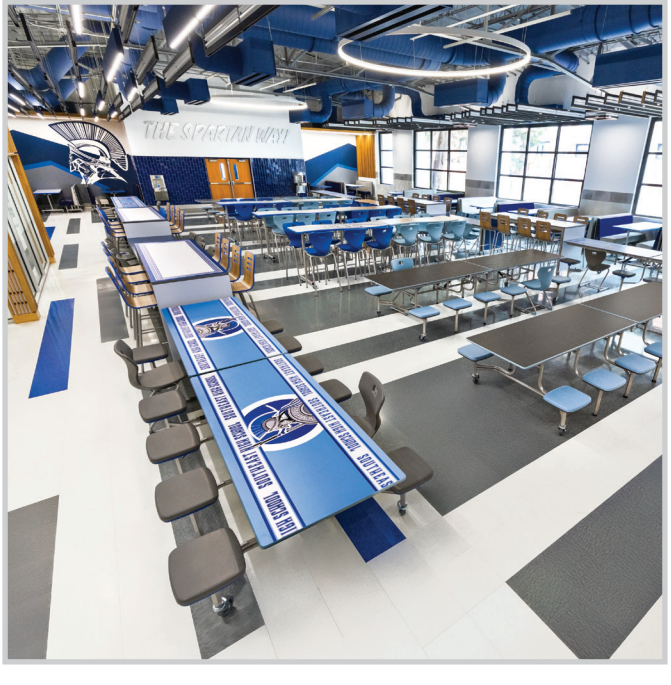
Design Collaboration
Create design concept boards containing design and paint scheme for furniture and signage graphic decor.

Design Package
Initial design package of newly designed space to review and approve.

Client Revisions, Updates, and Approval
Discuss design execution, development, and obtain client approval of services for rendering.

Client Quote
Pricing for project sent over to client.

Client Purchase Order
Purchase orders sent for approval.



**ARCHITECT SPECIFIED.
DESIGNER SELECTED.
CLIENT ADORED.™**

Production and Preparation

Every product we deliver is 100% America-made and customized to fit your unique space.

Space Evaluation
Surface assessment and finish specifications confirmed for a seamless, school-ready installation.

Coordinated Production Schedule
Signage Graphics Decor and furniture are produced in-house with rigorous quality assurance and full customization—built around your school's identity and space.

Pre-Installation Quality Review
Every piece is inspected, staged, and approved before leaving our facility—so nothing is left to chance on install day.

Installation

Our team ensures a seamless installation process, turning your vision into a vibrant, functional space.

Professional Installation
Our team installs all signage, graphics, decor, and furniture on site—every element placed correctly, safely, and on schedule with minimal disruption to your school day.

Space Completion and Walkthrough
Post-installation walkthrough with your team to confirm every detail meets expectations. Your modernized learning environment is ready for students.

Post-Project Support

Our relationship doesn't end at installation. We provide ongoing support to ensure your learning environment continues to perform and your district gets lasting value from every investment.

Post-Installation Documentation
Full photo and video documentation of your completed space—ready for board presentations, community communications, and grant reporting.

10-Year Modernization Review
A complimentary site visit at the 10-year mark to assess your space, plan future improvements, and ensure your environment keeps pace with evolving student needs.

NEUROARCHITECTURE AND NEUROCHEMICALS

AmTab's® design approach is grounded in neuroarchitecture—the science of how physical environments affect brain function, emotional regulation, and learning. Every space we design incorporates elements proved to support physiological wellness and socioemotional development: biophilic materials, purposeful color, sensory-considered layouts, and movement-friendly furniture. The result is an environment that naturally supports focus, positive emotion, and a sense of belonging—the neurochemical foundation for student success. Because the right environment doesn't just look good. It helps students feel good, think clearly, and thrive.

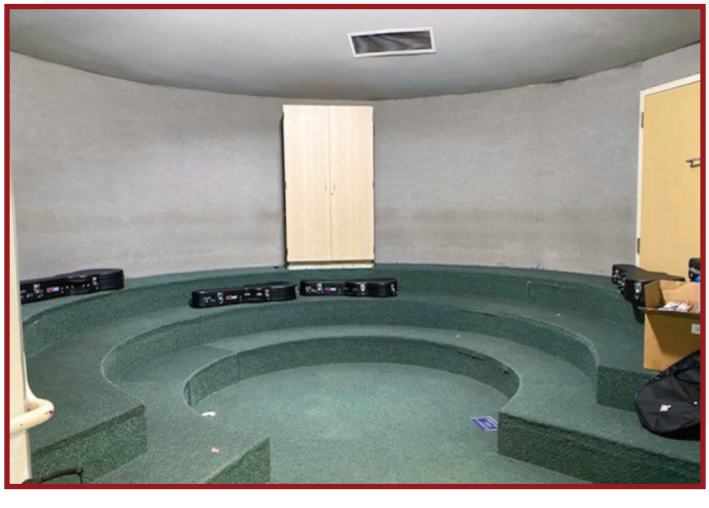
Before



After

Humanscale Reports

Humanscale is focused on creating ergonomic, wellness-centered work environments. They provide data-driven workplace assessments, design recommendations, and change management strategies to help organizations optimize employee comfort, health, and productivity. Humanscale prepared Ergonomic Evaluations of AmTab's® ErgoEngage® Chairs, studying the design considerations for productivity, comfort, health, safety, and optimum task performance. Their expertise combines human factors science with real-world implementation to support sustainable, people-first spaces.

Chair Fit and Usability Significantly Increased

Students were 4x more likely to say the ErgoEngage® chair fit them well, with better support and mobility.

Enhanced Cognitive Performance and Task Focus

Students reported 2.6x higher satisfaction completing school tasks in the ErgoEngage® chair.

Ergonomic Design Improves Physical Comfort

Discomfort was reduced across all major body regions, especially in the lower back, with a 24% improvement.

Paul, C., Sinelnikova, O. (2024) *ErgoEngage® Chair Design.*
Paul, C., Sinelnikova, O. (2024) *ErgoEngage® Chair Pressure Mapping Study.*

Reduced Muscle Fatigue

Reports of muscular fatigue discomfort dropped by 15% contributing to better focus and reduced strain during prolonged sitting.

Majority Report Positive Experience

Over 65% of students preferred the ErgoEngage® chair, while only 3% had a very negative experience (vs. 23% for standard).

Supports Human-Centered Learning Environments

The ErgoEngage® chair promotes healthier, more engaging, and inclusive seating for students of varying needs and sizes.

Districtwide Success Through A Standardized and Modernized Process

Your Master Plan for Districtwide Standardization: Space-by-Space or School-by-School

Modernization is about aligning vision, strategy, and outcomes. The AmTab® Learning Environments and Learning Experiences™ Program guides districts through a thoughtful and collaborative 6-phase master plan—delivered space-by-space or school-by-school—that transforms learning environments and the student experience from the ground up.

Each phase of the AmTab® Learning Environments and Learning Experiences™ Program master plan is designed to build momentum, align teams, and deliver positive measurable results:

AmTab® Thought Leadership Symposiums

Bring key leaders together for shared learning, partnership building, and immersion in award-winning design solutions.

Discovery Collaboration

Partner with AmTab® design team, engineers, and specialists to assess your spaces and uncover transformational opportunities.

Pilot Program and Case Study

Collaboratively launch with a fully modernized pilot space to model what is possible and gain buy-in from all stakeholders.

ALELEP Districtwide Standards: Space-by-Space or School-by-School

Establish cohesive visual, functional, community building, and ergonomic design standards for all future projects and spaces enhancing social and emotional development.

Learning Environments and Learning Experiences™ Program

Implement a districtwide master plan space-by-space or school-by-school, to modernize Learning Environments with key factors in furniture, signage, graphics, decor, and social media marketing.

Powerful Outcomes in Student Success

Measure the effect of your upgraded environments on engagement, behavior, participation, and instructional quality.

AmTab® Thought Leadership Symposiums

As part of AmTab's® Learning Environments and Learning Experiences™ Program, our Thought Leadership Symposiums serve as a transformational milestone—where ideas take shape, partnerships are built, and visions begin to materialize.

These exclusive events bring together the people who move education forward. From superintendents and nutrition directors to facilities leaders and architects, attendees explore award-winning design in action and collaborate with the team behind thousands of successful school modernizations.

Thought Leadership Symposiums

- **Superintendents Symposium**
  Engage in strategic conversations about student-centered design, academic outcomes, and leading change at scale.
- **School Business Officials Symposium**
  Learn how to align capital investments with long-term savings, efficient procurement, and measurable student impact.
- **Facilities Directors Symposium**
  See how behind-the-scenes upgrades to furniture, signage, graphics, and decor improve flow, durability, and school identity.
- **District Nutrition Leaders Symposiums**
  Explore the connection between modern cafeteria design and student participation, equity, and wellness.
- **Architects and Designers Symposium**
  Dive into the design process—combining innovation, pedagogy, and function to create cohesive, future-forward spaces.

District Takeaways

- **Real Access to Real Experts**
  Collaborate with AmTab's® 100+ member team of designers, engineers, project managers, and operational specialists.
- **Tour the Process. Visualize the Potential.**
  Tour our office, factory, and showroom to experience the craftsmanship behind our American-made furniture, signage, graphics, and decor.
- **Curated Panels and Breakouts**
  Hear from a national lineup of education leaders, district decision-makers, and industry visionaries who've led real change.
- **Relationships That Matter**
  Build direct partnerships with the people who will help modernize your entire district—without middlemen or generic solutions.

Pilot Program and Case Study

Innovation Needs Validation

At AmTab®, we believe great design starts with great feedback. That's why our Learning Environments and Learning Experiences™ Assessment Program includes structured Pilot Programs as a key step to operationalize innovation at scale. Before a district moves forward with a multi-site rollout, we help leadership "test drive" modern learning environments at one school.

Why Do Pilot Programs Matter? They...

Validate Assumptions

Confirm the effectiveness of new layouts, furniture, signage, graphics, and decor before districtwide implementation.

Gather Stakeholder Feedback

Capture authentic input from teachers, students, and staff through surveys, focus groups, and classroom walkthroughs.

Measure Impact

Evaluate improvements in comfort, behavior, student engagement, and instructional delivery using pre/post metrics.

Support Change Management

Give your educators and facilities team time to adapt to new configurations, routines, and expectations.

Pilot spaces serve as real-world proof points to ensure the vision, instruction, and community needs are fully aligned.

Discovery Collaboration

Discovery Scope

AmTab's® Learning Environments and Learning Experiences™ Program reviews all education spaces across campuses. The discovery identifies the condition of furniture, signage effectiveness, graphic design impact, overall aesthetics, and the school's social media marketing presence—ensuring every element of the environment, both physical and digital, supports student success and district-wide branding goals.

- Dining Commons, Food Courts, and Food Halls
- Outdoor Courtyards
- CTE, Makerspaces, and STEM
- Cafetorium Theaters
- Atriums, Entryways, and Gathering Areas
- Business and Administrative Offices
- Classrooms
- Learning Commons and Flex Spaces
- Esports, Computer Hotspots, and Technology Rooms
- Gymnasiums and Locker Rooms
- Art Classrooms
- Digital Presence
- Media Centers and Libraries
- Music and Performance Arts Classrooms
- Science Labs
- Auditoriums and Theaters
- Teachers' Lounges and Break Rooms

Discovery Process

1

School Walk-through and Discovery:

Observing and documenting the condition of facilities and furniture durability and shape.

2

Stakeholder Interviews:

Empathy mapping with school administrators, teachers, and students to evaluate the effectiveness of signage, furniture modernization, and the visual appeal and impact of graphics and decor.

3

Photo Documentation:

Capturing the present state of furniture, environmental conditions, and measuring spaces for modernization.

4

Social Media Marketing Review:

We collect and analyze district social media data to assess performance, identify engagement gaps, and uncover opportunities for stronger community connection and program visibility.

ALELEP Districtwide Standards: Space-by-Space or School-by-School

Comprehensive Discovery Criteria

The AmTab® Learning Environments and Learning Experiences™ Program documents key metrics like furniture condition, signage impact, and social media marketing effectiveness. Whether implementing change space-by-space or school-by-school, our discovery process ensures both physical and digital elements align with districtwide standards—creating cohesive, modern environments that support long-term student and school success.

Green: Current

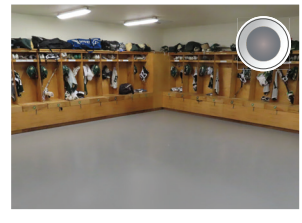
- Biophilic and ergonomic design criteria achieved.
- Meets current furniture and environmental standards.
- Provides functional, visually engaging, and student centered environment.
- Furniture operational mechanisms work.
- Routine maintenance needed or met.

Yellow: Improvement Opportunity

- Functional, but showing signs of wear and aging.
- Furniture or decor elements are misaligned with modern learning needs.
- Improvements recommended to enhance student experience.
- School branding and identity is mediocre.

Gray: Expired

- Worn out, inadequate, or expired.
- Environment is bland and lacking flavor.
- Upgrades are necessary to ensure safety, accessibility and functionality.



Red: Damaged and Inoperable

- Inoperable and/or safety hazard.
- Clearly damaged and cause for concern.
- Negatively impacts learning, student engagement, and school identity.

Discovery Report

AmTab® Discovery Report highlights opportunities in schools for modernization up to current standards, enhance functionality, effective aesthetics, and student engagement. This districtwide ALELEP approach ensures a strategic master plan tailored to the unique needs of each school.

ALELEP surveys...

- ✔ The condition and lifespan of existing furniture.
- ✔ Effectiveness of signage for branding.
- ✔ Impact of wall graphics and decor on the learning environment.
- ✔ Strengths and opportunities for improvement in key areas such as classrooms, cafeterias, and STEM labs.
- ✔ Student participation rate in school meal programs.

A Discovery Report helps...

Track Education Trends

- Increased spending on signage graphics and decor for school spirit improvements.
- Dynamic, ergonomic, and flexible seating are popular with students.
- STEM labs are prioritized for modernization.

Spot Common Areas for Improvement

- Classroom furniture need ergonomic upgrades.
- Outdated signage leads to navigation difficulties.
- Many schools lack the inspiring decor for enhanced learning.

Discern Individual Schools by The Numbers

- **60%** of schools have furniture over 10 years old.
- **75%** lack proper signage showcasing identity and branding.
- **40%** have outdated wall graphics and decor.

Furniture Standards

Furniture plays a critical role in learning environments, impacting student comfort, collaboration, and safety. We ensure that each district receives detailed evaluations of its current furniture conditions and tailored recommendations to support modern education.

Classrooms

During our evaluation of classroom environments, AmTab® identified a consistent trend: most instructional spaces are equipped with desks and chairs that are 10–15 years old. These legacy furnishings lack ergonomic design, inhibit flexible learning configurations, and contribute to student disengagement.

Recommendation: Transition to AmTab® ErgoEngage® Chairs—specifically engineered to support varied teaching methods and student needs. With ergonomic back support, lightweight mobility, and flexible configurations, ErgoEngage® enables educators to create dynamic, student-centered classrooms aligned to the district's standards.

Dining Commons, Food Courts, and Food Halls

Our evaluation of dining spaces revealed that several cafeterias lack adequate seating capacity, leading to overcrowding, reduced comfort, and shortened meal times. Much of the existing furniture is outdated—often heavy, immobile, and difficult to sanitize.

Recommendation: Upgrade to a variety of AmTab® high-performance, space-efficient, and easy-to-clean seating solutions designed for dynamic K-12 dining environments. Our Mobile Conversation Tables, Mobile Folding Booth Tables, and Mobile Stool and Booth Tables maximize seating capacity and provide flexible layout options to support high-traffic use while offering students meaningful choice and autonomy.

Discovery Collaboration

1.Comprehensive Campus Walkthrough → 2. Stakeholder Feedback Photo Documentation → 3. Discovery

Media Centers and Libraries

Library and media center spaces across the district exhibited a recurring issue: most environments are outfitted with rigid, outdated furniture that lack flexibility and variety. Current layouts do not adequately support diverse learning needs.

Recommendation: Transform libraries into vibrant, student-centered learning hubs with a mix of AmTab® Soft Seating, Collaborative Tables, and Ergonomic Seating. These flexible, mobile solutions support a range of learning styles—quiet zones for individual focus, open layouts for group collaboration, or tech-ready spaces for digital engagement.

Learning Commons and Flex Spaces

The current Learning Commons and Flex Spaces present a strong foundation with potential for transformation. While the existing layout provides basic functionality, the furniture is static and traditional, unable to support diverse ways students learn today.

Recommendation: Upgrade to a versatile mix of AmTab® Mobile Conversation Tables, Soft Seating, Collaborative Tables, Booths and Settees. These modular, mobile solutions are purposefully designed to allow multiple learning styles: group work, independent study, presentations, and collaboration. With AmTab®, Learning Commons and Flex Spaces become high-impact, future-ready learning environments.

Signage Graphics Decor Standards

School signage graphics and decor within a district influence student branding, community pride, safety, and navigation. Implementing a signage system creates a welcoming environment, improves efficiency, and enhances school identity.

Branding and School Identity

Schools that lack cohesive branding often struggle to establish a strong sense of school pride and recognition. Without clear signage, logos, or visual markers, students and visitors may find it harder to feel connected to the school community. A strong visual identity not only builds school spirit but also reinforces a shared culture and sense of belonging across campus.

Recommendation: Introduce custom signage throughout key areas of the school—such as entrances, gymnasiums, cafeterias, and libraries—featuring school colors, mascots, and logos. This creates a unified look and helps reinforce school identity at every turn.

School Spirit and Motivational Decor

A school's physical environment plays a major role in cultivating a sense of pride and unity. When walls are bare or inconsistent in design, students may feel disconnected from their school culture. Conversely, motivational decor that reflects shared goals and celebrates achievements can strengthen school spirit.

Recommendation: Add branded vinyl wraps, inspirational quotes, student success walls, and team banners across common areas to energize the environment and promote pride, morale, and belonging.

Signage, Murals and Educational Graphics

Schools that incorporate large-scale educational murals report higher student engagement creativity, and ownership of space. These visuals bring learning to life and turn blank walls into opportunities for inspiration, storytelling, and exploration.

Recommendation: Install interactive wall graphics, subject-specific murals, and rotating student artwork in hallways and shared spaces to foster engagement and create an inspiring visual journey throughout the school.

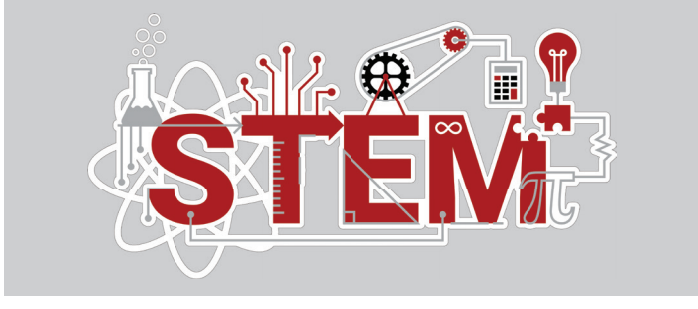
Discovery Collaboration

1. Comprehensive Campus Walk-through
2. Branding and School Identity Audit
3. Visibility and Compliance Review
4. Discovery, Samples, and Recommendations

Colors and Aesthetics' Impact on Learning

The intentional use of color within educational spaces has been shown to directly influence student mood, focus, and performance. Cool tones like blue and green promote calmness and concentration, while warm hues like orange and yellow stimulate energy and creativity. Many schools today still feature outdated color palettes that do not support these outcomes.

Recommendation: Refresh classrooms, dining spaces, and study areas using thoughtful color psychology that align with the intended use of each space—creating a more supportive, engaging, and student-centered environment.



Readability and Visibility

Outdated or poorly placed signage can lead to confusion, frustration, and missed opportunities for communication. When fonts are too small, colors lack contrast, or placement is not strategic, signage becomes ineffective and underutilized. Improving visibility helps students, staff, and visitors navigate the campus more efficiently and confidently.

Recommendation: Upgrade to large-format, high-contrast signage placed in high-traffic and decision-point areas like corridors, entrances, and transitions. Prioritize clarity and accessibility to ensure messages are easily understood by all users, including young learners and visitors.

Social Media Marketing Blueprint

Your Schools, Your Story, Your Community Amplified by AmTab®

AmTab® is a leader in social media marketing for K-12 spaces, with a proven track record of driving engagement, audience growth, and brand recognition.

We've grown our social media presence from to over 15,000 across all platforms, making us the fastest growing social media presence among K-12 leaders.

Discovery Collaboration

1. Social Media Review
2. Strategic Content Plan
3. Execution and Engagement Optimization

School Spirit and Digital Engagement

Schools that actively showcase their culture and achievements on social media foster higher student engagement and school pride.

Recommendation: Share interactive content, student achievements, and behind-the-scenes moments to create a connected school community.

Visibility and Community Connection

Schools that do not actively engage on social media miss opportunities to build relationships with students, parents, and the community.

Recommendation: Implement a content plan with motivational posts, success stories, and event highlights to strengthen engagement and visibility.

Branding and Online Identity

A lack of consistent school branding across social media platforms weakens recognition and school spirit.

Recommendation: Use school colors, mascots, and logos in profile images, banners, and graphics to establish a strong digital identity.

Voices From The District:
Educator and Student Experiences

Kelli Joseph – Superintendent
St. Helena Parish

"We are excited about the new Learners' Union for our kids at St. Helena College and Career Academy. Since the change, we've seen an uptick in our school lunch numbers, a calmer atmosphere, and happier kids!"

Kevin Weisenberger –
Director of Facility Services
Tumwater School District

"We absolutely love the risers! They are fantastic for our space."

Chris Minor – Food Service Director
Mercer County Schools

"We had an 111% increase in breakfast participation and a 30% increase in lunch participation after we modernized our student dining room with AmTab® furniture and Signage Graphics Decor."

Elementary Student

"I like our new chairs! They feel really nice and make school more fun!"

Stephanie Bruce – Principal
Pennfield Middle School

"In our new environment, we are able to maximize our educational square footage with the new furniture as we have more community events and after-school meetings here."

Latasha Carter – Principal
Chicago Public Schools

"Our school community love our new cafeteria tables and are ecstatic to have a school cafeteria for the first time in our school's history!"

Jen Miller - Middle School Librarian
Guilford County Schools

"The library space is now fun, bright, and most importantly functional and comfortable—and so students want to be in this space as a result. With the updated graphics and furniture making such an inviting atmosphere, it sends a message to all stakeholders that we value the students in our care."

High School Student

"The desk's edges are good to see and touch. The chairs are comfortable to sit on. The tables have more space to work!"

Individual School Discovery

School A - Classroom Discovery

Classrooms desks and chairs are outdated, leading to poor ergonomics, reduced comfort, and limited mobility. A lack of flexible seating options hinders collaboration and active learning models.

Recommendation: Upgrade to height-adjustable, modular, and ergonomic seating solutions to support varied teaching methods and student needs, like AmTab's® ErgoEngage® Chair Series.

No branding or signage to reflect school's visual identity. Furniture lacks engaging colors.

Recommendation: Utilize intentional color psychology in classrooms and study areas to enhance learning outcomes. Studies show that cool colors like blue and green enhance focus and relaxation, while warm colors like yellow and orange boost energy and engagement. Introduce school colors, mascots, and logos.

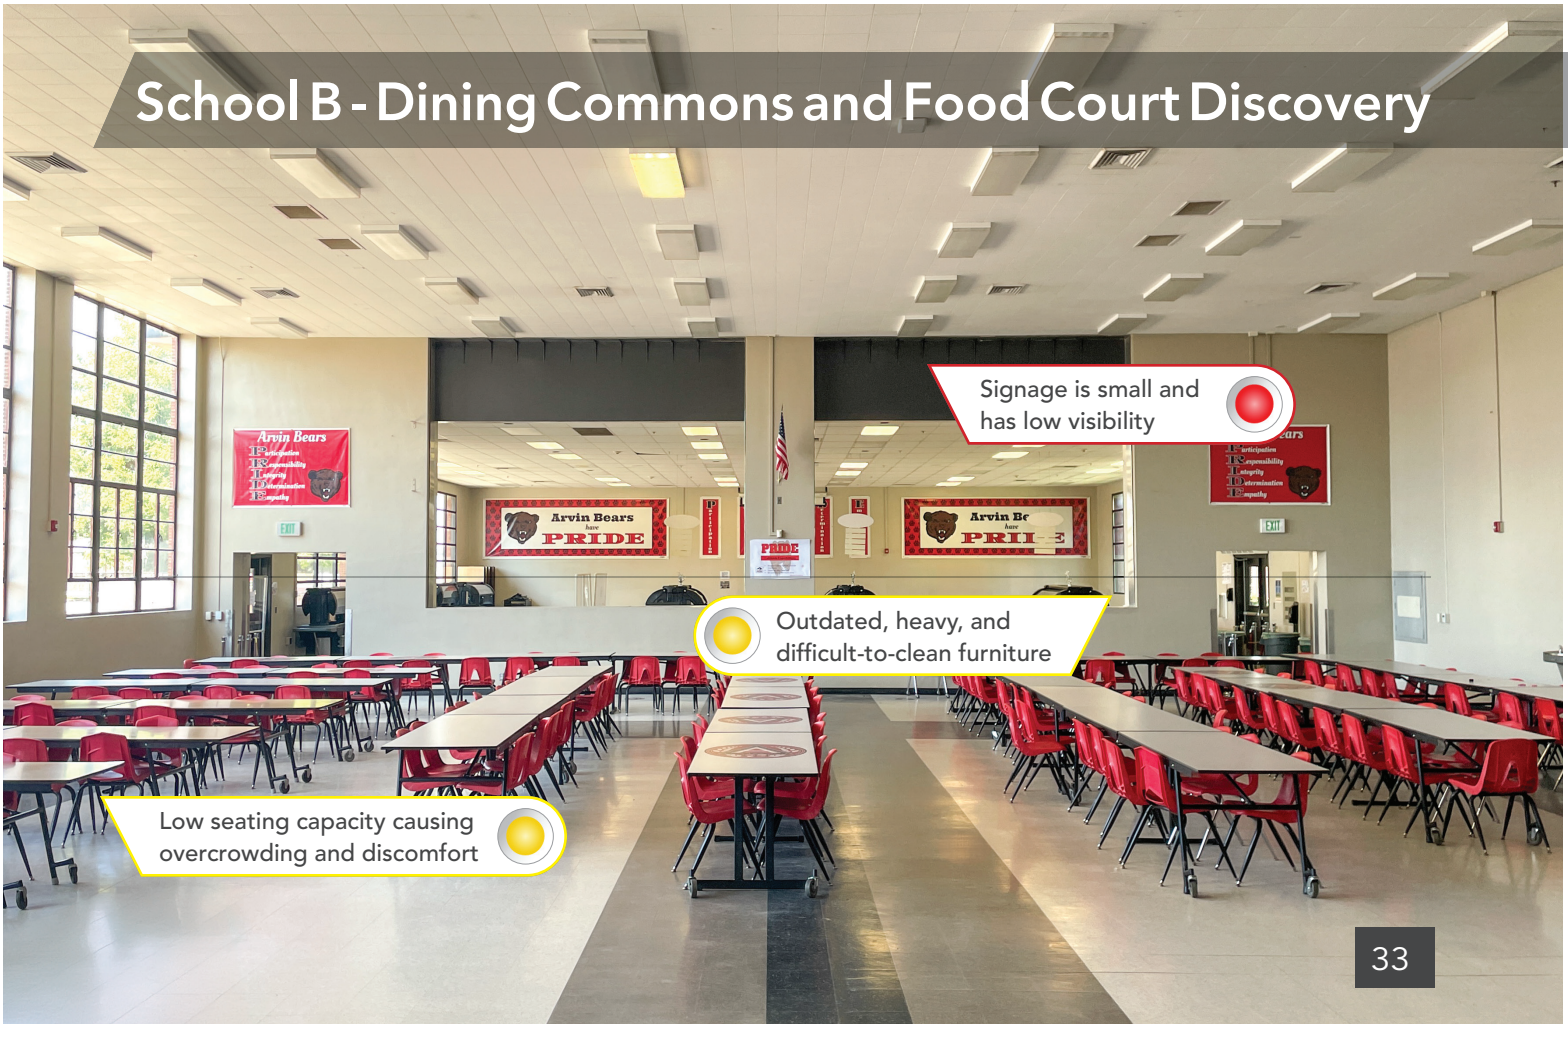
School B - Dining Commons and Food Court Discovery

Cafeteria lacks sufficient seating capacity, causing overcrowding and student discomfort during meal periods. Outdated, heavy, or difficult-to-clean furniture impact efficiency and maintenance.

Recommendation: Introduce ErgoEngage® Chair Series and Mobile Bench Tables. Modern, stackable, and easily cleanable furniture that optimizes space and supports high-traffic environments.

Limited branding and signage to reflect school's visual identity. Signage is small and positioned with low visibility, making message difficult to read and lack engagement.

Recommendation: Install interactive wall graphics, subject-specific murals, and student art displays in high visibility areas. Introduce custom signage featuring school colors, mascots, and logos at key locations and motivational banners, custom vinyl wraps and school-branded decor to boost morale, spirit, and pride.



Powerful Outcomes in Student Success

Studies prove that students in nature-inspired environments (natural textures and lighting, calming colors, and organic shapes, etc.) experience increased motivation, better focus, and higher achievement. Prioritizing Holistic Wellness elements in Learning Environments and Learning Experiences™ that encompass Biophilic Design properties lead to powerful outcomes in Student Success.

Holistic Wellness + Biophilic Design = Student Success

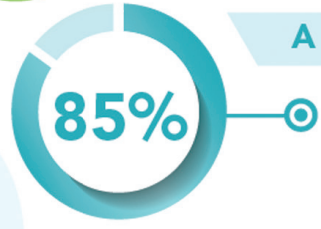
Intentional designs following this formula reduce anxiety and encourage meaningful engagement ultimately improving holistic wellness and student performance in academics. Schools that invest in student-centered environments will achieve better outcomes across the board.

AmTab Biophilic Classroom Furniture Achievement

A setup that supports learning

68% say the biophilic chair and desk make it easier to stay focused

A space they love



85% of students are excited about their new classroom

*"Our students absolutely **love the new ergonomic chairs,** and I've noticed a significant improvement in their focus during class. The flexible, active seating options have **transformed** the way we approach learning. Paired with sturdy, reliable tables, this setup feels **built to last**—supporting both engagement and durability in our classrooms."*

Kristina Stiens, 1st Grade Teacher
Central Road Elementary

Summary: ALELEP

AmTab® Learning Environments and Learning Experiences™ Program

Day 1 - Year 1: Master Plan and Standardization

Whether the plan is space-by-space or school-by-school, we focus on urgent, foundational fixes that immediately enhance the learning environment and build early momentum for long-term success. These fast-turnaround upgrades require minimal planning and can be implemented quickly to boost morale, safety, and usability—while laying the groundwork for future transformation.

Priorities

- Begin data collection, planning, and early-stage design to align with district goals
- Launch pilot classrooms to test new layouts and gather stakeholder feedback
- Replace outdated or broken furniture
- Tailored budget plan maximizing investment

Impact

- Immediate improvement to learning conditions and daily functionality
- Strong visual signal that transformation is underway
- Builds trust through action and prepares the district for scalable change

Years 1 - 10: Program Management and Modernization Across the District

We focus on quick, high-impact improvements that enhance safety, comfort, and navigation. By addressing the most pressing needs first, schools can create a more functional and welcoming environment with minimal disruption.

Priorities

- Upgrading essential classroom furniture to improve student comfort and focus

Impact

- Safer more functional learning spaces
- Improved accessibility and school branding

Years 11 and Beyond: Review and New Cycle Launch

Modernization for Learning Experiences and Learning Environments™ are completed. We'll review your warranty to confirm modernization and functionality stays up to date.

Full-Scale Classroom and Common Area Upgrades

- Implements flexible, mobile furniture to support collaboration and technology integration

Campus-Wide Graphics and Decor Enhancements

- Adds dynamic wall murals, subject-based visuals, and school-themed decor

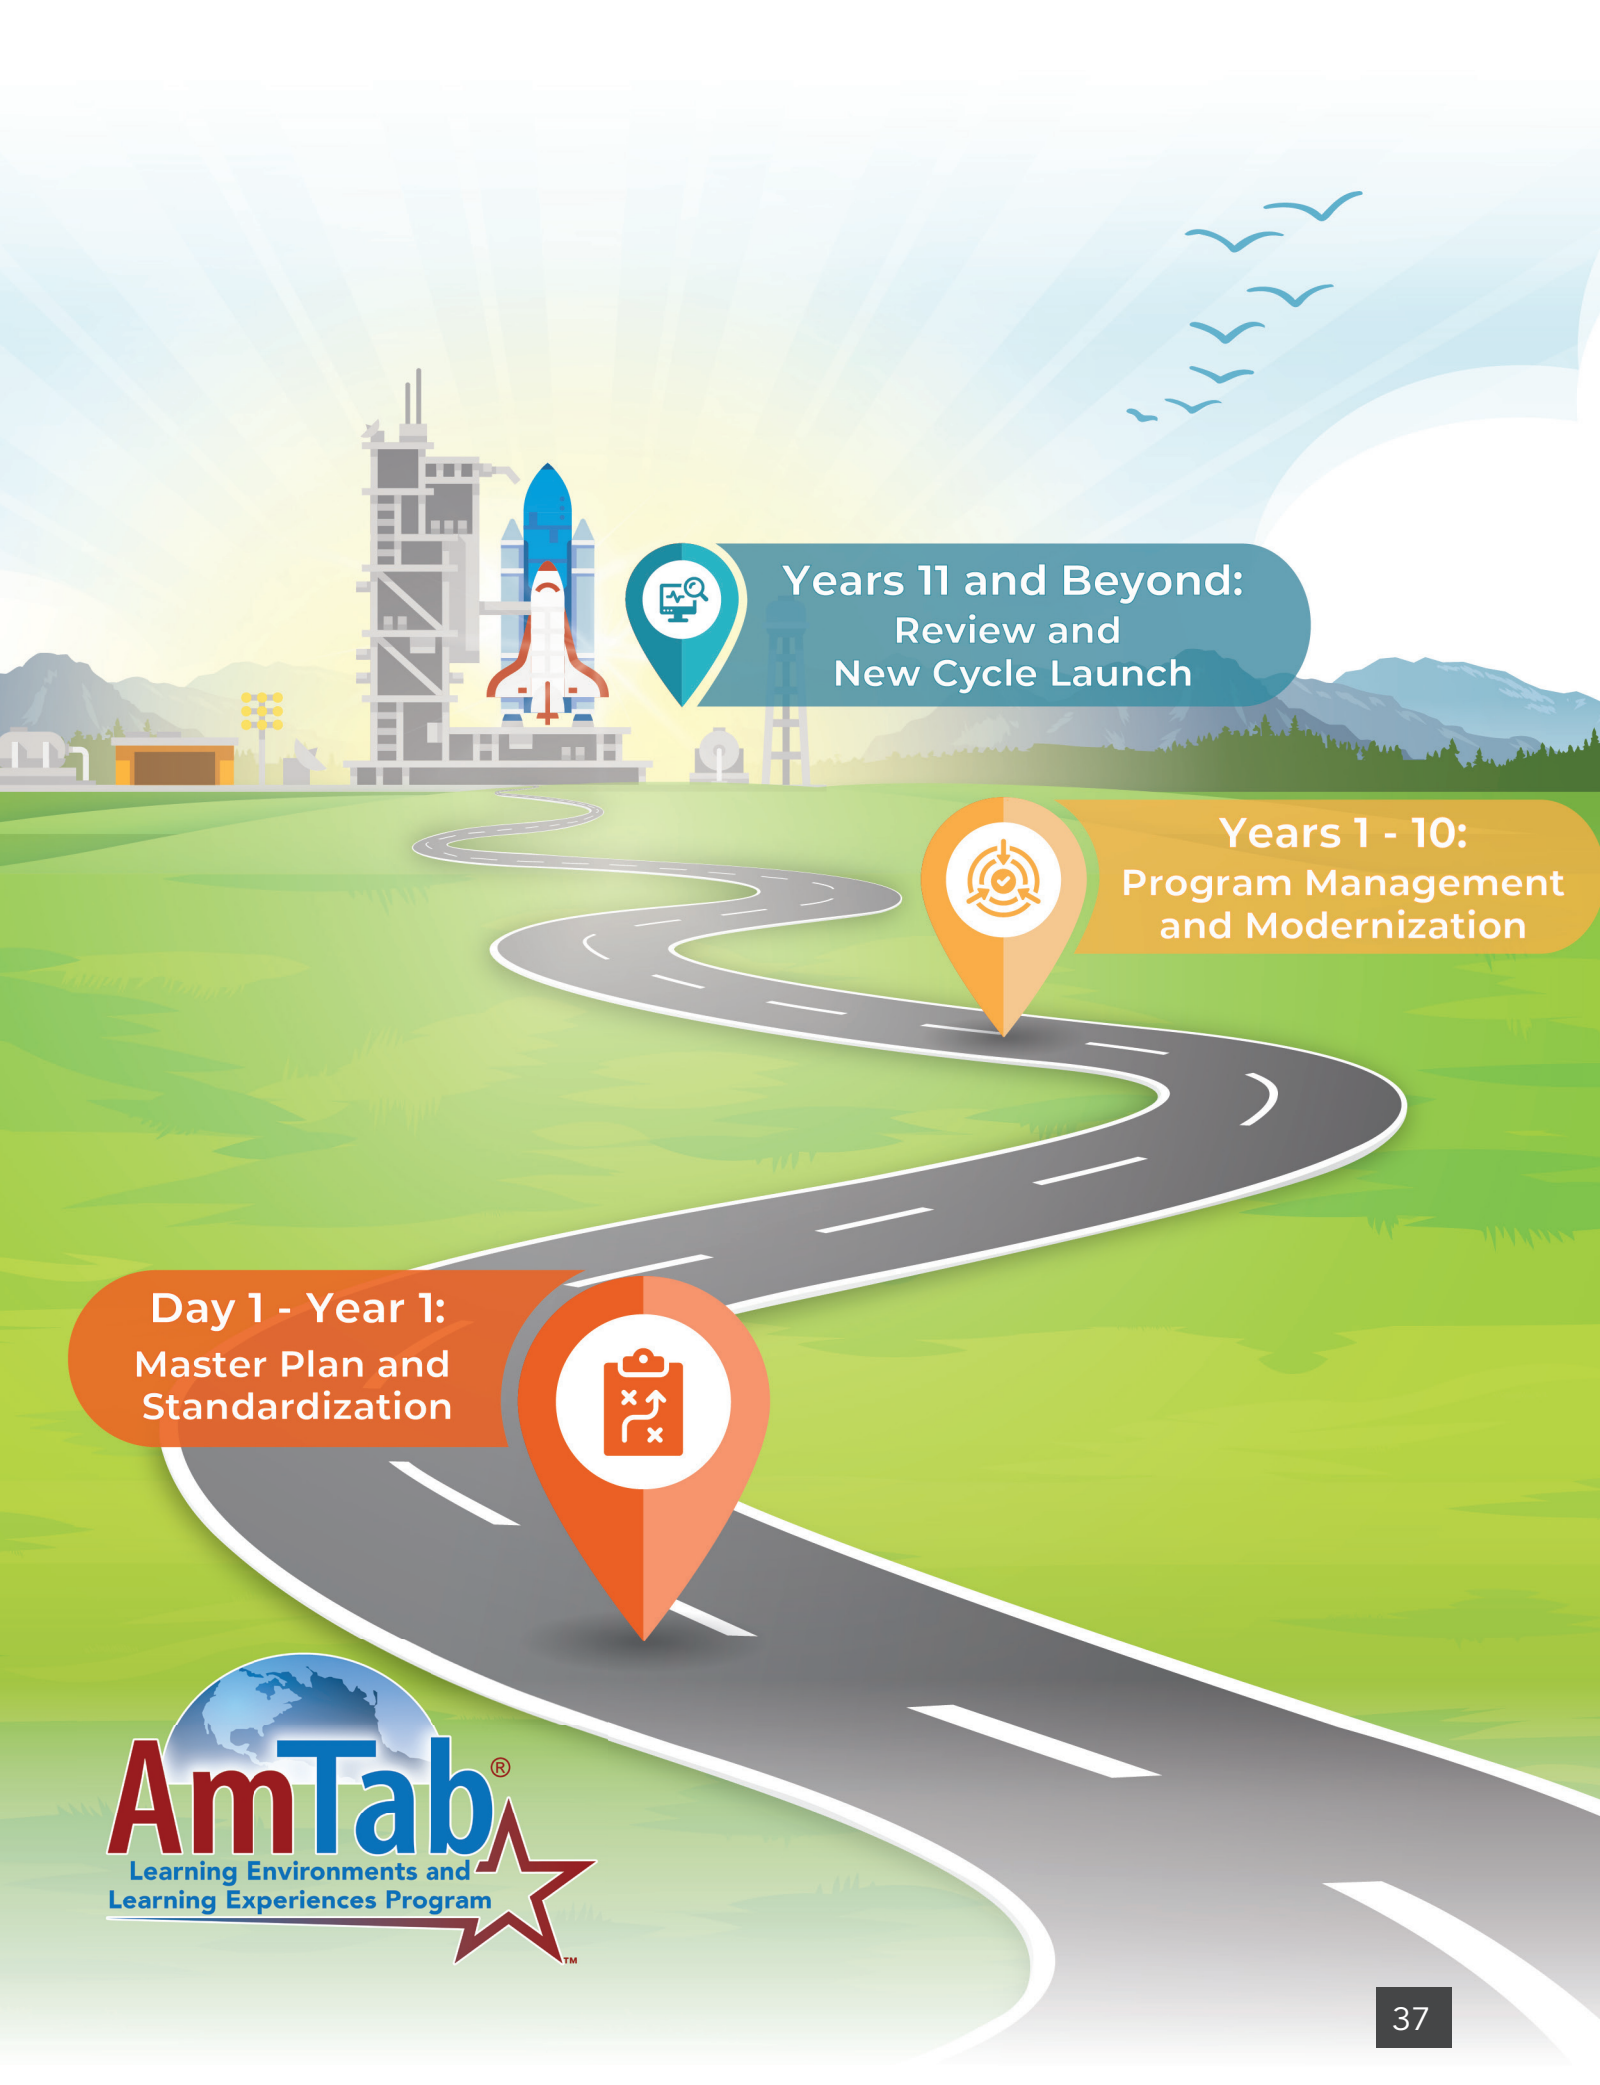
Impact

- Cutting-edge, student- centered learning environments
- Stronger school identity and long-term cost savings

Throughout the entire process:

White Glove Delivery and Installation at each school site for a full turn-key implementation.

Regular access to AmTab's® Education and Curriculum Team to interface with educators and curriculum leaders to optimize learning environments and learning experiences at each school in the district.



Years 11 and Beyond:
Review and
New Cycle Launch
Years 1 - 10:
